

# LIGHTNING

## Commercial Grade Manual Press

### Best Value in Its Class

- Entry-level price
- Packed with features

### Easy to Use

- Ergonomically engineered to be user-friendly
- Lightweight and durable

### Available in configurations of:

- ✂ 4 stations/4 colors up to 8 stations/8 colors
- ▣ Maximum print area: 21" x 28"

## STANDARD FEATURES

### Design and Construction

- Double bearing registration locks ensure the utmost print quality when running multi-color jobs
- Strong but lightweight steel frame for easy movement
- Side screen clamps provide maximum stability
- 100% tool-less setup and operation

### Print Heads

- Print heads have an adjustable, guided spring tensioning system that does not require lubrication
- Off-contact and screen pitch adjustments are located on each print head
- "All Heads Down" feature allows you to print any color from any print head on any pallet on 4/4, 6/6 and 8/8 models

### Registration

- Fine threaded micro registration (same system as our automatic presses)
- Easy-to-read micro registration targets
- Compatible with Anatol's ARME pre-registration system, as well as many other common pre-registration systems available on the market
- Three point micro registration: front to back, side to side and rotational movement

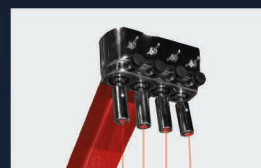

### Pallet System

- 16" x 22" solid aluminum, low profile rubber-coated pallets standard, with a variety of specialty and custom pallets available separately
- Slide-style pallet system
- Laser alignment system for quick and easy apparel alignment

### Options

- Quick release pallet system
- Air screen clamps
- Youth and sleeve pallets
- Choice of rear screen clamps
- Rapid Wave quartz flash cure on a height-adjustable floor stand
- Infrared flash cure on a height-adjustable floor stand
