

THUNDER

**Robust for Round the Clock
Production**

Minimizes wear and tear

- Constructed for performance and durability
- Designed to handle high demand screen printing

Perfect complement to any shop

- Takes up little space
- Great addition as a sampling or production machine

Available in the following configurations:

- | | |
|-----------------------|-----------------------|
| ❖ 4 stations/4 colors | ❖ 8 stations/8 colors |
| 4 stations/6 colors | 10 stations/10 colors |
| 6 stations/6 colors | 12 stations/12 colors |
| 4 stations/8 colors | |

STANDARD FEATURES

Design and Construction

- Double bearing registration locks ensure the utmost print quality when running multi-color jobs
- Heavy-duty steel frame and roller bearings support quick and smooth operation
- Conical gusseting system provides uniform pallet arm support to prevent the pallets from flexing or twisting. When printing, it is important that the pallets are unyielding to squeegee pressure
- 100% tool-less setup and operation
- Ergonomically engineered to be user-friendly

Print Heads

- "All Heads Down" feature on models with an equal number of stations and colors allows you to print any color from any print head on any pallet
- Print heads have an adjustable, guided spring tensioning system; no lubrication required
- Off-contact and screen pitch adjustments are located on each print head
- Adjustable side screen clamps provide maximum stability

Registration

- Three point micro registration of the screen in a true X & Y axis (front to back, left to right, rotational movement)
- Fine threaded micro registration (same system as our automatic presses)
- Easy to read micro registration targets
- Compatible with Anatol's ARME pre-registration system, as well as many other common pre-registration systems available on the market

Two-Year Limited Warranty

Every effort has been made to ensure the accuracy of the promotional information included in this brochure. Specifications are subject to change. Anatol Equipment Manufacturing Co. and its subsidiaries, if any, expressly disclaim any liability for damages, consequential or incidental, resulting from the purchase, transportation, installation, or use of any products based on information contained within this brochure. Any rights or remedies are limited solely to those provided in writing by Anatol Equipment Manufacturing CO. at the time of sale.

Pallet System

- 16" x 22" solid aluminum, low profile rubber-coated pallets standard, with a variety of specialty and custom pallets available separately
- Slide-style pallet system
- Four-point pallet leveling system
- Swivel feet on screen clamps to prevent movement while tightening
- Laser alignment system for quick and easy apparel alignment

Options

- Air screen clamps
- Jacket hold down pallets
- Youth and sleeve pallets
- Vacuum pallets
- Quick release pallet system
- Choice of rear screen clamps at no extra cost
- Rapid Wave quartz flash cure on a height-adjustable floor stand
- Infrared flash cure on a height-adjustable stand

Laser alignment system standard
- new feature for 2020

STATIONS/ COLORS	MAX IMAGE SIZE	MAX SCREEN SIZE	STANDARD PALLET SIZE	DIAMETER
